Mr. Tom Schneider, Project Manager
Ohio Environmental Protection Agency
401 East 5th Street
Dayton, Ohio 45402-2911

Dear Mr. Saric and Mr. Schneider:

**REQUEST FOR DISPOSAL OF REMOVAL ACTION 28 WASTE IN THE ON-SITE
DISPOSAL FACILITY**

Fluor Fernald, Inc. has reviewed site records regarding containerized asphalt and stockpiled building rubble generated during Removal Action 28, Contamination at the Fire Training Facility, for the purpose of evaluating eligibility for disposal in the On-Site Disposal Facility (OSDF). Both hard copy and database records indicate that the subject debris was generated after October 1, 1994, and therefore, does not constitute a "Legacy" waste. We are requesting concurrence for disposal of these wastes in the OSDF.

The total volume of the asphalt and building rubble is estimated to be 200 cubic yards. The Waste Acceptance Organization (WAO) would provide field oversight during repackaging of the containerized asphalt to roll-off boxes, to verify the absence and/or segregation of any prohibited material and compliance with matrix and size requirements. WAO also would provide field oversight during excavation of the stockpiled building rubble. Tracking logs (i.e., manifests) will be completed to document WAC compliance and the disposition location of the asphalt and building rubble in the OSDF. The debris will be manifested and placed as an OSDF Category 2 material.

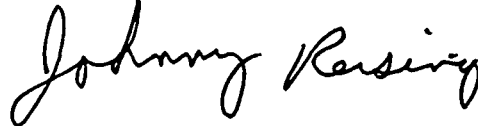

Mr. James A. Saric
Mr. Tom Schneider
